

News from L'Anse Middle School

Quarter 2

Produced by 8th Grade Multimedia

December 2018

Math 6 with Mrs. Wilder

.As of December 10th, the Math 6 exam will cover Chapters 1-5. We will complete Chapter 5 after break and then begin our semester exam review. Students will complete a set of exam practice questions. The Math 6 exam usually has two parts: a larger calculator part and a shorter non-calculator part. Students should study & practice accordingly.

Please check Mrs. Wilder's website for weekly lesson plans, copies of some of the handouts used in class, and changes or updates to what we do in class. Also, remember that grades should never be a surprise. Please monitor Skyward to see how your student is doing in class. Students also receive weekly reports in class about their current grades. Parents can also ask their student about their progress.

6th Grade Science with Ms. Belej

In quarter 2, the sixth grade students learned about Earth Science. They explored the rock cycle and did a fun lab where they ate their igneous candy rocks! Students have also learned about the water cycle and how the surface of the Earth is changing. Currently, the class is studying natural resources, and next, they will move into a life science unit.

6th Grade Geography with Mrs. Waara

Great job on your Balloon Globe projects, Natural Resources Google Slide Presentation, and Geography Skills Poster!

We are starting our 2nd book which is on the US and Canada. We will be studying physical geography, the history, the cultures, and regions of both countries. We are reviewing the 5 themes of geography while reading *My Side of the Mountain* by Jean Craighead George.

English 6 News

"I am excited to start the next quarter. We have settled into using the new vocabulary books and are getting comfortable with Readworks.org.

Coming up next, we will continue to work on vocabulary, focus on informational text, summarize from a nonfiction novel, learn to develop an argument, & compare texts. Students will continue practicing grammar skills and how to find explicit & implicit details as they strengthen reading comprehension.

As always, please contact me if you have any questions." --Mrs. Maddux

A green sign with a white crown at the top. Below the crown, the text "KEEP CALM AND GOOD LUCK WITH YOUR EXAM" is written in white, bold, capital letters.

Good luck, Sixth Grade, on your first time taking exams.
