

L'Anse Area Schools
January 2025
Employee of the Month
Brooke Osterman

Brooke has been with L'Anse Area Schools as the School Nurse and CTE Health Careers Instructor since the 2020-2021 school year. Brooke continues to do an amazing job at both assignments, but she has earned the January Employee of the Month for going above and beyond organizing the 2024 HOSA Regional Conference. Hosted here at L'Anse Area Schools and KBOCC for the first time, Brooke organized over 40 competitive health events for over 300 students and their advisors from across the U.P., and the volunteers necessary to run all of the events. The Regional HOSA Conference is an amazing experience for students interested in health related careers, providing them with the opportunity to perform and compete at the state level. Not only did this year's conference showcase student talent, but it also provided an opportunity to showcase our school and our community. We are grateful to have Brooke as a part of the team at L'Anse Area Schools, and for her extra efforts this year to bring such a great event to our school and community.
